# NERGECO R FORUM 5

## WORKFLOW CONTROL

### JUST IN TIME OPENING CYCLE

Thanks to the Wireless Reversing Edge (WRE) the door can open at the last moment and close directly. While the safety of products and goods are guaranteed, it also minimizes the exposure time of the door.

### SEALS AND HANDLES PRESSURE DIFFERENCES

Thanks to the flexible stiffeners the pressure is distributed evenly over the whole frame which increases the seal.

## SAFETY

### PEOPLE AND PRODUCTS

Nergeco door curtains have a free, flexible and reactive soft bottom edge can be compressed both vertically and horizontally which will protect people and goods while keeping repair and maintenance costs down.

### WINDOWS

The transparent material allows people to see oncoming traffic. The materials are anti-fatigue and treated against UV and cracking.

## LOW MAINTENANCE AND HIGH DURABILITY

### MULTI-COMPOSITE FRAME

The toughness of the side-guides, their ability to absorb an impact without becoming permanently distorted, and the absence of paint guarantees a durable, corrosion-free appearance.

### AUTO REINSERTION

In the case of an accidental impact, the curtain sets itself again avoiding lost time or repair costs.

### NO-FRICTION ROLL UP TECHNOLOGY WITH A DIRECT COUPLED MOTOR

The motor is protected by an adapted multi composite cover and has only 5 moving parts (motor, gearbox, limit switch, rolling shaft, bearings) which limits the need for maintenance and grease.

> Safety: Wireless Reversing Edge

Tearing	Corrosion	Fatigue	Denting
110%	145%	480%	630%

> Multi composite materials & Auto reinsertion

> Safety soft bottom protecting products

© Entrematic Group AB – 2018

Entrematic offers a comprehensive range of products for industrial, commercial, institutional and residential applications, including sectional doors, loading dock equipment, high-performance doors, residential garage doors, pedestrian door automation and openers. Built on nearly 200 years of accumulated expertise, Entrematic is the preferred partner of distributors and the number one choice of end user customers, providing innovative products, technical expertise and a portfolio of industry-leading brands including Amarr, Kelly, Serco, Normstahl, Dynaco, Ditec and Nergeco.

Entrematic, Amarr, Kelly, Serco, Normstahl, Dynaco, Ditec, EM and Nergeco, as words and logotypes, are examples of trademarks owned by Entrematic Group AB or companies within the Entrematic Group.

The Nergeco products are protected by worldwide registered patents. As part of its policy of continuous product development, Entrematic Group NV reserves the right to change the characteristics of its products or components without prior notice.

Disclaimers: For a correct use of our products, please refer to our manual. Everything that is mentioned in this brochure is only valid under the terms of use in the user manual and on condition that the door was properly installed and maintained and has not undergone abuse nor neglect.
